

PROSPER DOKO

DEVOPS & AI ENGINEER | CLOUD & GENERATIVE AI

Cotonou, Benin | +229 01 96 52 98 02 | ingprs01@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

DevOps & AI Engineer with 7+ years of experience designing, deploying, and operating cloud-based SaaS, communications, and AI-powered platforms. Hands-on across AWS, Linux, Docker, Kubernetes, CI/CD, GitHub Actions, Bash, Python/FastAPI, Node.js, REST APIs, microservices, and relational databases. Experienced in integrating Generative AI and conversational AI using OpenAI, Gemini, Claude, Grok, RAG, AI agents, and external AI APIs, with a strong background bridging software engineering, cloud infrastructure, automation, monitoring, and production AI systems.

TECHNICAL SKILLS

Cloud & AWS: AWS EC2, S3, Lambda, RDS, IAM, VPC, CloudWatch

DevOps & Platform: Docker, Kubernetes (KCNA), GitHub Actions, CI/CD, Linux, Nginx, Bash, Git, deployment automation, monitoring, secrets & configuration management

Generative AI & AI Engineering: OpenAI, Gemini, Claude, Grok, AI agents, RAG, prompt engineering, conversational AI, ASR, TTS, NLP, AI API integration

Backend & APIs: Python, FastAPI, Node.js, Express.js, TypeScript, PHP/Laravel, REST APIs, webhooks, microservices

Data & Async Systems: PostgreSQL, MySQL, Redis, queues, asynchronous processing

Voice & Communications: Asterisk, SIP trunking, WebRTC, IVR, FreePBX, LiveKit, SMS/OTP

PROFESSIONAL EXPERIENCE

Full Stack Developer & Solutions Architect | Jan 2023 - Present

OurVoice SARL | Cotonou, Benin

- Architected, deployed, and operated cloud-based AI and communications platforms supporting AI voice agents and enterprise communication workflows.
- Built production REST APIs and microservices with Python/FastAPI and Node.js/Express for AI, telephony, messaging, and third-party integrations.
- Containerized services with Docker and implemented GitHub Actions CI/CD pipelines, reducing deployment time by 50%.
- Integrated Generative AI and conversational AI capabilities using LLM APIs, AI agents, RAG, ASR, TTS, and NLP workflows.
- Built event-driven integrations using REST APIs, webhooks, queues, Redis, and asynchronous processing across distributed services.
- Managed Linux-based production environments, Nginx, monitoring, application configuration, and secrets management.
- Led a five-person engineering team across architecture, software development, deployment, and production delivery.

IT Manager | Jan 2022 - Dec 2022

TIC Agro Business Center | Benin

- Managed a seven-person development team and increased productivity by 25% through Agile/Scrum adoption.
- Deployed and administered AWS EC2 and S3 infrastructure for secure, reliable application hosting.
- Established engineering standards, code-review practices, and deployment processes to improve software quality and reliability.

PROFESSIONAL EXPERIENCE - CONTINUED

Full Stack Developer | Sep 2019 - Jan 2022

GVersion Ltd | United Kingdom (Remote)

- Developed REST APIs and backend services for a residential property key-management platform serving UK property managers.
- Designed and optimized a Vue.js dashboard to improve usability and application performance.
- Collaborated with distributed cross-functional teams to define requirements and deliver production features iteratively.

Full Stack Developer | Jul 2017 - Aug 2019

Nautilus Technology | Benin

- Developed web and mobile platforms for B2B clients using PHP and Laravel.
- Built and maintained REST APIs supporting multiple client-facing applications.

SELECTED AI & CLOUD PROJECTS

CallBot Citoyen - Production AI Voice Agent | Hack4Democracy 2025 - 1st Prize

- Built and deployed a multilingual phone-based AI agent enabling citizens to access public information through natural voice conversations, combining telephony, speech AI, backend APIs, and AI orchestration.

OurVoice / AI Voice Platform

- Designed an AI/VoIP SaaS architecture combining voice agents, cloud services, REST APIs, webhooks, queues, real-time communications, and backend microservices.

TendersLeads - SaaS Platform

- Built a SaaS platform that monitors public tenders and delivers targeted notifications based on industry sectors and user preferences.

EDUCATION & CERTIFICATION

Engineering Degree in Computer Science | Polytechnic School of Abomey-Calavi, University of Abomey-Calavi, Benin | 2014-2016

Kubernetes and Cloud Native Associate (KCNA) | The Linux Foundation | Aug 2025

LANGUAGES

French: C1 / Fluent | English: B2 / Professional Working Proficiency
